They're completely integrated into your skin.
It looks like it would be impossible to pull them out by force.

Could you look at my tail too?
Yes, that's fine.
Your tail is most likely the same way your ears--

■Afterword

Hello, isya here.

Regarding this book - sometimes I like to draw with pure momentum alone, and not think too deeply about the story and other things. I drew this in about a week. It's nice to do this once in a while! (But not all the time.) I enjoy the broadcast each week, thinking that Mana sure is like a puppy, and like a mutt. Mana is so very nice when she's in a panic and flustered.

I drew this without much in mind, but since I (forcefully) found a theme in the last parts, the story can continue on. Hopefully I'll have a sequel to this out sometime between September and December! See you later!
